SUMMARY

As a final-year Computer Science student, I'm eager to apply my skills in a professional setting. I have a strong foundation in Java and SQL and hands-on experience turning raw data into meaningful insights using Tableau and Power BI. My project work and certifications from platforms like HackerRank prove I can tackle complex problems and collaborate effectively. I am ready to contribute to a team and grow as a tech professional.

EDUCATION

- **Annamacharya Institute of Technology and Sciences** — 2022–2026
  Bachelor of Technology, CSE (Data Science) , CGPA: 9.14 — Rajampet, A.P
- **Medha Junior College** — 2020–2022
  Intermediate (MPC), 94.6% — Mydukur, A.P
- **Sri Sai High School** — 2020
  Secondary Education, 95% — Mydukur, A.P

INTERNSHIP EXPERIENCE

- **Data Science Intern** — *April 2024 – June 2024*
  Tools: Excel, Python (NumPy, Pandas), Tableau, Power BI — Remote
  ○ Conducted exploratory data analysis and statistical operations using **Python** libraries like **NumPy** and **Pandas**
  ○ Created interactive dashboards using **Tableau** and **Power BI**, improving insight delivery for real-world datasets
  ○ Cleaned and transformed raw data in **Excel**, streamlining reporting for business decision-making
  ○ Delivered insights that supported operational and strategic decisions across multiple use cases

PROJECTS

- **Student Management System – GUI-based desktop application** — *July 2025* [🎧]
  Tools: Java, JavaFX, MySQL, JDBC
  ○ Built a modular desktop app to manage student records using **JavaFX** and **MySQL**
  ○ Integrated database operations with **JDBC** for real-time CRUD functionality
  ○ Applied GUI design principles and OOP concepts for scalability and usability
  ○ Implemented input validation and error handling to enhance robustness

- **Calculator App – Basic arithmetic calculator with GUI** — *June 2025* [🎧]
  Tools: Java, JavaFX
  ○ Created a GUI calculator to perform basic operations like addition, subtraction, etc.
  ○ Employed **JavaFX** for user-friendly interface and OOP for modular design
  ○ Implemented keyboard input support and clear/reset functionality
  ○ Tested extensively to ensure accuracy and responsiveness of operations

SKILLS

- **Programming Languages:** Java (Object-Oriented Programming), Python (Basics), SQL
- **Tools & Technologies:** MS Excel, Power BI, Tableau, ServiceNow

CERTIFICATIONS

- **FrontLinesMedia:** Data Analytics Certification — *June 2025*
- **GeeksForGeeks:** Java Programming Certification — *July 2025*
- **ServiceNow:** ServiceNow Certified System Administrator — *July 2025*
- **HackerRank:** SQL Intermediate — *May 2025*

STRENGTHS

- **Communication:** Excellent verbal and written communication skills
- **Problem Solving:** Strong analytical and logical reasoning abilities
- **Adaptability:** Quick learner, flexible with new tools and technologies

DECLARATION

I hereby declare that the above information is true to the best of my knowledge and belief.

Place: Mydukur **Date:** July 22, 2025
